How do I rent a dormitory room?

Application for Accommodation

In order to apply for student accommodation, you have to fill out an application form for accommodation on our website: www.studentenwerk-giessen.de. To complete the application, you will need your confirmation of enrolment or your admission letter. Please upload these documents into your application before submitting it.

In case you haven't received an admission letter or your confirmation of enrolment by that time, you have the chance to hand in all your documents at a later point in time. However, make sure to do so before the semester starts. After submitting your application, you will receive an email confirmation with a link to confirm your application. As soon as we have an adequate room available, we will contact you per email.

If you are no longer interested in finding a room or an apartment, please inform us as soon as possible.

After you apply for accommodations, you will receive an email asking you to confirm that you are still interested in student accommodations. If you do not confirm your interest via this email, your applications will appear in our system as closed.

Housing Contract

As soon as we are able to offer a suitable room, we will send you an offer accordingly and ask you to sign a letter of acceptance. It is necessary to send back the document in time in order to guarantee the room.

Afterwards, you will receive the housing contract itself, which needs to be signed and sent back as well. Furthermore, you are always welcomed to visit us and settle all formalities locally.

The homepage of the Office of Student Affairs in Giessen offers detailed information about this special form of leasing and the platform where landlords offer the living space and interested students can choose the suitable offer: www.wohnen-fuer-mithilfe.de.
